Mohd Salman

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic and detail-oriented full stack web developer with a solid foundation in Core Java gained over 6 weeks of intensive virtual training. Proficient in modern technologies such as React and Tailwind CSS, and well-versed in design principles. Demonstrated expertise in executing both solo and collaborative projects, translating creative concepts into responsive and visually appealing web applications. Committed to continuous learning and growth in the ever-evolving field of web development.

PROJECTS

1. Wood Fans | 🌐 | 📱

ReactJS | Tailwind CSS | Firebase | Redux

- Developed an online furniture store using ReactJS, Tailwind CSS, Firebase, and Redux
- Implemented a responsive design to provide a seamless experience across different devices
- Created a product catalog with detailed descriptions to help users make informed choices
- Collaborated with a team of 4 members to complete the project in 7 days

2. Wine Shop Website | 🌐 | 📱

HTML | CSS | JavaScript | JSON Server | Firebase

- Designed and developed an online platform for wine enthusiasts to explore and purchase a diverse range of wine products.
- Implemented user registration, a product catalog, detailed product views, a shopping cart, and a streamlined checkout process.
- Executed by a 3-member team within a 5-day timeframe.
